PROFESSIONAL SUMMARY

I am a Junior Full-Stack Developer with a strong foundation in web and software development. I work with HTML, CSS, JavaScript, Python, Java, PHP, and SQL to build responsive, user-friendly applications and reliable backend functionality. I have a solid understanding of databases, version control, and basic networking concepts, and I continuously seek to improve my skills through learning and hands-on practice. My goal is to grow into a well-rounded developer who builds efficient, scalable, and user-focused systems.

KEY SKILLS

- Software Development
- Programming & Web Development
- Databases & Data
- IT and Networking
- Problem Solving
- Professional Skills
- DEV-OPS

EDUCATION

Advance Diploma in Information Technology
Vaal University of Technology
Currently studying

Diploma in Information Technology
Vaal University of Technology
Graduated 2026

National Senior Certificate
BASA Protea Glen
Graduated 2022

TECHNICAL SKILLS

Python	HTML5	Applied Machine learning	Front-End Development
Java	CSS3	Version Control	Back-End Development
PHP	JavaScript	Problem solving	Responsive Web Design
SQL	Tech support	Debugging	Networking
		GitHub & Git	DEV-OPS

EXTRACURRICULAR ACTIVITIES

- Chairperson of Green Campus Initiative 2025 (Vaal University of Technology)
- Student Volunteer
